

UMMADALA THARUN

Python Full-Stack Developer · IT Student

tharunummadala@gmail.com · +91 9182346637 · linkedin.com/in/tharunummadala · github.com/uTharun23

PROFESSIONAL SUMMARY

Information Technology student with a strong passion for Python full-stack engineering, API design, and computer vision applications. Proven experience in developing responsive frontends, modular web services with Flask, and integrating computer vision algorithms. Experienced in version control and collaborative workflows.

TECHNICAL SKILLS

Programming Languages:	Python, JavaScript, SQL, C (Basics)
Frontend Technologies:	HTML5, CSS3, JavaScript, Responsive Web Design
Backend & APIs:	Flask, RESTful APIs, JSON
Databases:	MySQL
Tools & Platforms:	Git, GitHub, VS Code
Core Concepts:	OOP, Data Structures & Algorithms, API Integration, Full-Stack Development

WORK EXPERIENCE & TECHNICAL TRAINING

ExcelR	Remote
Python Full-Stack Developer Trainee	May 2026 – Jul 2026
- Developed full-stack web applications and backend routing components using Python, HTML5, CSS3, and Flask. - Implemented clean modular coding practices, RESTful APIs, and maintained version control using Git.	
Sunrise Elevators Company	Vijayawada, AP
Technical Trainee	Jan 2023 – Jun 2023
- Diagnosed and resolved electrical malfunctions, performed routine diagnostics, and maintained elevator systems. - Collaborated with senior technicians to execute regulatory safety inspections and document operational logs.	

PROJECTS

AI Resume Intelligence System	Python, Flask, HTML, CSS
GitHub: github.com/uTharun23/AI-resume-intelligence-system	
- Engineered a web-based resume analysis platform using Python and Flask to automate job description matching and scoring. - Implemented scoring algorithms to evaluate keyword matches and highlight missing skills.	
TerraSight AI – Plant Monitoring System	Python, OpenCV, Image Processing
GitHub: github.com/uTharun23/TerraSight_AI	
- Developed a crop health monitoring application using computer vision and image processing for early disease detection. - Created detection algorithms to analyze leaf anomalies and export diagnostics for agricultural planning.	
Brightness Control Using Hand Gestures	Python, OpenCV
GitHub: github.com/uTharun23/Brightness_Control	
- Built a real-time gesture-based brightness control utility using webcam-based hand tracking and computer vision. - Programmed spatial coordinate tracking to translate hand gestures into system-level brightness adjustments.	

ACHIEVEMENTS

- Engineered a custom parsing pipeline in Flask that extracts and maps key resume credentials.
- Developed gesture recognition algorithms in OpenCV tracking hand motions at 30 FPS.
- Successfully completed NPTEL certification in 'Design and Implementation of Human-Computer Interfaces' from IIT.

CERTIFICATIONS

- NPTEL Certification:** Design and Implementation of Human-Computer Interfaces (HCI) – IIT (2025)
- ExcelR Certification:** Python Full Stack Internship Program (2026)

EDUCATION

Andhra Loyola Institute of Engineering & Technology	Vijayawada, AP
Bachelor of Technology (B.Tech.) in Information Technology	2024 – Present (Expected 2027)
Dhanekula Institute of Engineering & Technology	Vijayawada, AP
Diploma in Electrical & Electronics Engineering (EEE) – Score: 85%	2021 – 2024
G.D.E.T.M.C High School	Vijayawada, AP
Secondary School Certificate (SSC) – GPA: 9.8	Completed 2021

ADDITIONAL INFORMATION

Languages:	English, Telugu, Hindi
Technical Interests:	AI Applications, Web Development, UI/UX Design
